University of Florida College of Public Health & Health Professions Syllabus

HSA 6114 – Introduction to US Health Care Semester: Fall 2014 Delivery Format: On-Campus

Instructor Name: Allyson Hall, PhD

Room Number: HPNP 4137 Phone Number: 352 273 5129

Email Address: hallag@phhp.ufl.edu

Office Hours: Mondays 12 noon to 1:45pm

Teaching Assistants:

Cilia Zayas, MHAcilia@ufl.eduShenae Samuels, MPHshenae@ufl.eduCesar Escobar-Viera, MD MPHcgescobar@ufl.edu

Preferred Course Communications: Email

Course Overview

This three credit course provides an overview of the evolving structure of the US public health and health care delivery systems. This courses utilizes a blended learning format. A Blended Learning class uses a mixture of technology and face-to-face instruction to help students maximize their learning. Blended learning typically involves multiple technologies such as E-Learning systems, online video, and web assignments for the communication of information. Some knowledge content that would have traditionally been presented during a live class lecture will instead be provided online before the live class takes place. This allows more of the face-to-face time to focus on the higher levels of learning including critical thinking and reasoning.

You are expected to actively engage in the course throughout the semester. You must come to class prepared by completing all out-of-class assignments. This preparation gives you the knowledge or practice needed to engage in higher levels of learning during the live class sessions. If you are not prepared for the face-to-face sessions, you will struggle to keep pace with the activities occurring in the live sessions, and it is unlikely that you will reach the higher learning goals of the course. Similarly, you are expected to actively participate in the live class. Your participation fosters a rich course experience for you and your peers that facilitates overall mastery of the course objectives.

Relationship to Program Outcomes

Course Objectives and/or Goals

The objectives of the course are designed to contribute towards mastery of key competencies for the MPH and MHA programs. Course assignments, activities, and assessments are linked to the learning objectives and competencies.

MHA Competency	MPH Competency	Course Objective	Activities	Assessment
Analyze, synthesize, and	Evaluate	Formulate responses to	Case Study Group	Case I and Case 2
act on key trends,	effectiveness,	critical issues in public	Discussions	
activities, and	accessibility, and	health and health care	Case I and Case 2

ACADEMIC REQUIREMENTS AND GRADING

Assignments

Assignment		Points	Due Dates
Case Study 1	Budget Cuts to a state health department	20	September 17
Case Study 2	Emergency Department Wait times	20	November 6
Article Critique 1	See Article Critique Guidelines	10	One week after presentation to group
Article Critique 2	See Article Critique Guidelines	10	One week after presentation to group
Reaction to Article Critique 1	See Reaction Guidelines	5	One week after critique delivered to group
Reaction to Article Critique 2	See Reaction Guidelines	5	One week after critique delivered to group
Midterm Exam	Material covered from August 25-October 8	15	To be completed by October 15
Final Exam	Material covered from October 14-December 4	15	To be completed by December 10
Participation	Instructor reserves the right to deduct up to 5 points for non-participation in Wednesday discussion groups	-5	

Point system used (i.e., how do course points translate into letter grades).

Points earned	95-100	90- 94.9	88- 89.9	82- 87.9	80- 81.9	78- 79.9	72- 77.9	70- 71.9	60- 69.9	50- 59.9	40- 49.9	Less than 40
Letter Grade	А	A-	B+	В	B-	C+	U	C-	D+	D	D-	E

Please be aware that a C- is not an acceptable grade for graduate students. In addition, a grade of C counts toward a graduate degree only if an equal number of credits in courses numbered 5000 or higher have been earned with an A.

Letter grade to grade point conversions are as follows and are fixed by UF and cannot be changed.

Letter	Α	Α-	B+	В	B-	C+	С	C-	D+	D	D-	E	WF	I	NG	S-U
Grade																
Grade	4.0	3.67	3.33	3.0	2.67	2.33	2.0	1.67	1.33	1.0	0.67	0.0	0.0	0.0	0.0	0.0
Points																

For greater detail on the meaning of letter grades and university policies related to them, see the Registrar's Grade Policy regulations at:

http://catalog.ufl.edu/ugrad/current/regulations/info/grades.aspx

WEDNESDAY DISCUSSION DAYS

Wednesdays will be used for small group discussion and synthesis of lecture material. Students will be divided into small groups of 6 prior to the first discussion day, August 27th. In each group and depending on the day, students will participate in:

Article Discussions. Two students in a group will select and discuss an article relevant to the topic of
the day. Students will select two topics for which they will select an article to present to their
group. Students will also submit summary of the article via the assignment tool in Sakai. In
addition, a copy of the article must be uploaded to their group's discussion board the Monday
before the Wednesday presentation [look for the add assignment tab]. Title the upload with your
last name and date of presentation
Remaining members of the group should have read the article
prior to the group meeting.

Two additional students will provide a written reaction to the article summary via the assignment tool in Sakai.

On August 27th, a sign-up sheet will be distributed to each group. Students will sign-up for the two topics for which they will select an article and present to the group. Students will also sign-up to summarize two article discussions. The summary will be submitted online.

In summary: students in each group will sign up to present two articles and 2 additional summaries for a total of 4 assignments in this category.

More information on the article critiques and reactions are detailed below.

- Case Studies: Discussion on a particular scenario in public health and health care delivery.
 Students will prepare individual write-ups to be submitted via Sakai. The Wednesday class meeting will provide a forum for discussing the case study. More information will be detailed in the case study assignments.
- **Special Topic Discussion:** Focus on a particular topic as outlined in the syllabus. For several special topics the focus will be on reviewing and critiquing a relevant video/movie. There is no written assignment associated with the special topic discussion.

Each student will sign up for two article critiques on August 27th. For each of these two topics the student will select a pertinent article to read, provide a written summary, and an overview to their group. Articles can come from the peer-reviewed literature (e.g. JAMA) or the popular press (e.g. New York Times, Modern Healthcare).

Your written article critique should include:

- The name of the article, and site the source (i.e. was it from JAMA, New York Times, or other source, date)
- A summary of the major elements of the paper (e.g. description of the policy, research project, best practice, public health program etc., that the paper is about)
- Your reaction to the piece (what interested you? Did anything shock or surprise you? Is there anything you disagree with?; any biases the authors may have?)
- Discuss how the article is relevant to the topic or lecture (i.e implications for health policy, health care delivery, or health management)

Points will be allocated as follows

Appropriate citation using APA or MLA style	2 points: All elements of an appropriate citation are present. See citation cheat sheet.
	1 point: Key element is missing (e.g. author; website; date of
	publication etc.). Key elements will vary according the nature of the
	publication.
	0 point: more than 1 key element is missing
Summary of the major elements of the paper	3 points: Summary includes a description of the research study, program, problem, or issue under review. Grader has a clear understanding of what the article is about and the author's conclusions. No need for grader to review actual article in order to
	understand context for reaction that follows.
	1-2 points: Summary does not discuss key elements of the research
	study, program, problem, or issue under review. Grader does not
	understand critique or commentary because limited information on
	article content is provided.
	article content is provided.
	2-3 paragraphs
Student reaction to the article	3 points: Grader can identify your personal reaction to the piece (e.g. expression of agreement or disagreement; possible bias, limits of data, how it could impact the practice of public health or health administration). Discussion on relevancy of article to material covered in class.
	1-2 points: Reaction not linked to major themes of the article (see above). Difficult for grader to link reaction to major elements of the paper as described above.
	2-3 paragraphs
Grammar and presentation	2 points: The critique is well organized with good transitions.
	Language is professional and free of jargon or informal statements
	0-1 point: The paper has clear organizational flaws that are distracting. Significant use of informal language. Tone is not professional. Need to improve the sentence structure, grammar, spelling, punctuation,
	and/or word choices. There is a pattern of errors in the paper.
1	anajor word choices. There is a pattern of errors in the paper.

Students are encouraged to incorporate outside knowledge and ideas into the critique. A summary of the article is **not** sufficient, but is necessary. This is not an exercise in reading comprehension, but rather an assessment of your ability to think critically about information that is presented to you.

Upload your written critique/summary (maximum 2 pages double or single spaced) via the assignment tool in Sakai. In addition, upload the article to the discussion board for your group at least two days prior (i.e. Monday) to the day of discussion.

Students presenting the articles are also responsible for leading the subsequent discussion. Since there will be two presentations about 25 minutes should be devoted to each article.

- Summary of article content (~2 minutes)
- Critique of the article (2-5 minutes)
- Relevance to the lecture/health policy/health care delivery (2-5 minutes)
- Discussion with group (2-5 minutes). THINK OF A QUESTION TO ASK YOUR CLASSMATES

RESPONSE TO ARTICLE CRITIQUE GUIDELINES

Students who are not providing critiques for a particular topic are expected to review articles posted for that Wednesday's article discussion prior to the group meeting. Students will submit a summary and reaction to the group's discussion via the Assignment tool for 2 articles.

Reactions should include a brief outline of the paper, a summary of classmate reaction and discussion points, and a discussion of their own views (e.g. agree or disagree with classmate's discussion, additional questions that need to be asked).

Policy Related to Make up Exams or Other Work

All assignments should be submitted online through Canvas.

Only in extreme circumstances will the instructor accept late assignments. If you anticipate turning an assignment in late please discuss with the instructor or teaching assistant beforehand.

Any requests for make-ups due to technical issues MUST be accompanied by the ticket number received from LSS when the problem was reported to them. The ticket number will document the time and date of the problem. You MUST e-mail your instructor within 24 hours of the technical difficulty if you wish to request a make-up.

Policy Related to Required Class Attendance

Please note all faculty are bound by the UF policy for excused absences. For information regarding the UF Attendance Policy see the Registrar website for additional details: http://www.registrar.ufl.edu/catalogarchive/01-02-

catalog/academic regulations/academic regulations 013 .htm

The expectation is that students will attend class and participate in discussions and in-class learning activities.

Academic Integrity

Students are expected to act in accordance with the University of Florida policy on academic integrity. As a student at the University of Florida, you have committed yourself to uphold the Honor Code, which includes the following pledge:

"We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honesty and integrity."

You are expected to exhibit behavior consistent with this commitment to the UF academic community, and on all work submitted for credit at the University of Florida, the following pledge is either required or implied:

"On my honor, I have neither given nor received unauthorized aid in doing this assignment."

It is your individual responsibility to know and comply with all university policies and procedures regarding academic integrity and the Student Honor Code. Violations of the Honor Code at the University of Florida will not be tolerated. Violations will be reported to the Dean of Students Office for consideration of disciplinary action. For additional information regarding Academic Integrity, please see Student Conduct and Honor Code or the Graduate Student Website for additional details:

https://www.dso.ufl.edu/sccr/process/student-conduct-honor-code/

http://gradschool.ufl.edu/students/introduction.html

Please remember cheating, lying, misrepresentation, or plagiarism in any form is unacceptable and inexcusable behavior.

SUPPORT SERVICES

Accommodations for Students with Disabilities

If you require classroom accommodation because of a disability, you must register with the Dean of Students Office http://www.dso.ufl.edu within the first week of class. The Dean of Students Office will provide documentation to you, which you then give to the instructor when requesting accommodation. The College is committed to providing reasonable accommodations to assist students in their coursework.

Counseling and Student Health optional in UF Template

Students sometimes experience stress from academic expectations and/or personal and interpersonal issues that may interfere with their academic performance. If you find yourself facing issues that have the potential to or are already negatively affecting your coursework, you are encouraged to talk with an instructor and/or seek help through University resources available to you.

- The Counseling and Wellness Center 352-392-1575 offers a variety of support services such as
 psychological assessment and intervention and assistance for math and test anxiety. Visit their web
 site for more information: http://www.counseling.ufl.edu. On line and in person assistance is
 available.
- You Matter We Care website: http://www.umatter.ufl.edu/. If you are feeling overwhelmed or stressed, you can reach out for help through the You Matter We Care website, which is staffed by Dean of Students and Counseling Center personnel.

- The Student Health Care Center at Shands is a satellite clinic of the main Student Health Care Center located on Fletcher Drive on campus. Student Health at Shands offers a variety of clinical services.
 The clinic is located on the second floor of the Dental Tower in the Health Science Center. For more information, contact the clinic at 392-0627 or check out the web site at: https://shcc.ufl.edu/
- Crisis intervention is always available 24/7 from:
- Alachua County Crisis Center: (352) 264-6789

http://www.alachuacounty.us/DEPTS/CSS/CRISISCENTER/Pages/CrisisCenter.aspx

BUT – Do not wait until you reach a crisis to come in and talk with us. We have helped many students through stressful situations impacting their academic performance. You are not alone so do not be afraid to ask for assistance.
