ACADEMIC REQUIREMENTS AND GRADING
Assignments

1. Seminar Preparation and Presentation (30%)

At each class at least two students (possibly more depending on enrollment in the class) will present and play a leadership role in the discussion of a specific country assigned in the first class. The selected students for that class will organize the seminar for that week, select the readings from the bibliographies in the course syllabus, consider the subtopics for discussion, etc. They will prepare questions for class discussion. The articles eligible for inclusion in the class discussion have already been collected for each country – see "Course Materials and Technology" section for complete list of articles for each country. Use PowerPoint Slides for a 20 minutes presentation is required per article, followed by 20 minutes discussion.

2. Team Presentations (20%)

Team presentation will be 30 minutes long following Q and A and discussion. A team of 2-5 students will present in the class on the week 15 and 16 of this semester. Team members must assure that each student in the team has a presentation role. Students should use PowerPoint slides for the presentation. The presentation should focus on a comparison of the health care system of at least five countries with respect to one topic (e.g., financing, pharmaceuticals, health system reform, etc.), followed by a critical discussion on the strength and weakness of each country on the selected topic.

3. Final Project (30%)

Each student will need to submit a 10-page long paper in using the knowledge they acquire in this class to write a term paper. Students are expected to write an in depth, critical evaluation of one country's health care system. Students are required to discuss a health related issue affecting that country, and then discuss a policy recommendation for their cases. Students can choose any country, other than the United States.

Your paper should be typed, double-spaced on standard-sized paper (8.5" x 11") with 1" margins on all sides. You should use 12 pt. Times New Roman font.

4. Class participation (20%)

Attendance is mandatory. All students are expected to read each assigned article and participate actively in the discussion. They may receive additional task, assigned by the student leading that week's seminar. Please prepare discussion questions as you will be called upon for questions as time permits each week. Students who contribute more to class discussion will earn more bonus points on final grades.

Point system used (i.e., how do course points translate into letter grades).

Points earned	95-100	90-94.99	87-89.99	83-86.99	80-82.99	77-79.99	73-76.99	70-72.99	67-69.99	63-66.99	60-62.99	Below 60
Letter Grade	A	A-	B+	B	B-	C+	C	C-	D+	D	D-	E

Please be aware that a C- is not an acceptable grade for graduate students. A grade of C counts toward a graduate degree only if an equal number of credits in courses numbered 5000 or higher have been earned with an A. In addition, the Bachelor of Health Science Program does not use C- grades.

You must include the letter grade to grade point conversion table below. Letter grade to grade point conversions are fixed by UF and cannot be changed.

Letter Grade	A	A-	B+	B	B-	C+	C	C-	D+	D	D-	E	WF	I	NG	S-U
